

There are truly more and more people in this community that listen to K-Love radio. It is positive and encouraging to hear our local teen-agers listening to this radio station. This is the only Christian station here and to have it removed would be a shame. This station is all funded by the listeners. If K-Love has been broadcasting as long as they have with donations from listeners, there is obviously a need and want for this kind of music. We need and want this positive listening for this community. For young and old. Please keep K-Love on the air
